- **Frameworks & Web:** React, Spring Boot, REST APIs, .NET
- **Databases:** MySQL, PostgreSQL

TOOLS & CORE CONCEPTS

- **Tools:** Visual Studio, IntelliJ IDEA, Maven
- **Core Subjects:** Data Structures, Algorithms, Problem Solving
- **Working Knowledge:** Core & Advanced Java

PROJECTS

College Management System C#, .NET, MySQL, HTML, CSS, JS
A web-based application designed to manage and simplify college-related activities digitally. Enables administrators to execute full CRUD operations on student and college records, maintain academic files, and store data securely while eliminating manual paperwork.

Quiz Application Java, Spring Boot, PostgreSQL, REST APIs, Maven
A dynamic web application featuring user registration, topic selection, multiple-choice questions, question navigation, automatic evaluation, and instant score calculation to help users test and track their knowledge.

ResuMate (Resume Management System) C#, .NET Framework
Built a centralized Resume Management System in C# and .NET to automate the storage, parsing, and categorization of applicant resumes. Designed an intuitive user interface that significantly reduces manual sorting.
